

Care & Cleaning

We recommend the following products for cleaning of Cultured Marble, Cultured Granite or Tru Stone.

GEL-GLOSS - Available at most hardware and grocery stores. Spray on, let sit a few minutes, wipe off.

CLEAN SHOWER – Spray on walls after showering, no wiping.

RAIN X – Spray on surfaces periodically to bead water, and avoid build-up of water deposits.

SPIC & SPAN – Dilute 1 full capful to a gallon of water, clean as directed.

VINEGAR & BAKING SODA – Mix together a small amount and let soak around drain in sink to remove stains.

VINEGAR & WATER – Mix 1 part vinegar to 3 parts water in a spray bottle. Spray on tub & shower walls after use.

Do NOT use harsh abrasives such as AJAX, COMENT, TILEX, LIMEAWAY, OR BLEACH.

FOR WHIRLPOOL CLEANING:

Fill tub about 2 inches over jets, pour $\frac{3}{4}$ cup of bleach into tub and run jets for 5 minutes. Drain tub, refill with clean water and run jets a few minutes to rinse.
